hey there

Thanks for considering me to photograph your wedding or civil partnership. I love being there on your special day - and I understand the trust that goes with it. There's lots to think about when planning the day and so many people involved - caterers, venues, in-laws... but your photographer is the only one there by your side throughout it all. You need someone there you're comfy with.

So - what is 'laid-back photography' all about? Well, it's about just that: getting you relaxed so there's one less thing to worry about. Having fun and kicking back with your guests, so we capture the laughter and the smiles of your day. Making your Auntie Judith grin without knowing she's doing it. Capturing that pride in a relative's eye. Noticing those moments you'll miss because you're so busy, ensuring you'll remember them for years to come.

Every wedding is special and unique, so the package you choose is designed around you. Let's have a chat - tea and cake's on me.

BECOME A NATURAL

before your wedding

A PRE-WEDDING SHOOT

Let's face it - lots of us find posing for the camera awkward, and the last thing you want on your wedding day is to feel stressed about photos! 'Laid-back photography' is about helping you to be as relaxed as possible. This is where a pre-wedding shoot can help.

I recommend a pre-wedding shoot for most couples. Not only does it allow us to get to know each other more, you'll learn all the tips and tricks that'll make your wedding portraits shine on the day. They'll be a breeze, meaning more time for champagne and giggling with your guests.

IDEAL FOR SAVE THE DATES

Not only is a pre-wedding shoot ideal for getting comfortable in front of a camera, they're also ideal to use as you prepare for your wedding day.

You can use them for so many things - save the date cards, wedding invitations or your wedding website perhaps?

Why not use some of the images in a Signing Book on your wedding day? Ask me for some ideas and we'll design something just for you.
